RECOMMENDED COURSES AT UNT

TECM 3200: Information Design for Electronic Media

An understanding of the fundamentals of web design, and how they change over time, is necessary to successfully manage and distribute content. Information Design for Electronic Media provides hands-on experience with designing, developing, and writing for desktop and mobile interfaces.

TECM 4400: Advanced Information Design

An advanced understanding of web design, web applications, and user experience is an invaluable skill. Advanced Information Design provides an in-depth look on how to write, design, develop, and test information for electronic media using industry-standard software.
